

ARNOLD STANLEY VINCENT BURGEN

PUBLICATIONS

1. Physiological effects of alkyl polyphosphates. Burgen, A.S V., Keele,, C A., Chennells, M., del Castillo, J., Floyd, W.F., Slome, D., Wright, S. Nature, Lond. 1947, 160, 760
2. Urinary excretion of phosphatases in man. Burgen, A.S.V., Lancet, 1947, i, 329.
3. The action of alloxan and related compounds on alkaline phosphatase Burgen, A.S.V. and Lorch, J.I. Biochem. J. 1947, 41, 223
4. The skin lesions of monocytic leukaemia. Fairburn, E.A. and Burgen, A.S V. Brit. J. Cancer, 1947, 1, 352
5. The action of botulinum toxin on the isolated rat diaphragm. Burgen, A.S V , Dickens, F., Zatman, L.J. J. Physiol. Lond. 1948, 107, 40.
6. A simplified method for the estimation of chloroform in blood. Burgen, A.S.V. Brit. med. J., 1948, i, 1238.
7. Tetra-ethylpyrophosphate in myasthenia gravis. Burgen, A.S V., Keele, C.A., McAlpinc, D Lancet 1948, i, 519.
8. Quantitative studies of procaine metabolism in the cat. Burgen, A.S.V. and Keele, C.A. Brit. J. Pharm & Chemotherapy, 1948, 3, 128
- 9.* The action of botulinum toxin on the neuromuscular junction. Burgen, A.S.V., Dickens, F., Zatman, L.J. J. Physiol. Lond. 1949, 109, 10
10. The pharmacology of the methyl and benzyl esters of N-crotonic betaine. Burgen, A.S.V., and Hobbiger, F. Brit. J. Pharmacol. , 1949, 4, 229
11. The mechanism of action of anti-cholinesterase drugs. Burgen, A.S V. Brit. J. Pharm & Chemotherapy. 1949, 4, 219
12. Pharmacological actions of tetraethylpyrophosphate and hexaethyltetraphosphate. Burgen, A.S.V., Keele, C A., & Slome, D. J.Pharm.Exp.Ther., 1949, 96 , 396

13. The assay of anticholinesterase drugs by the chromodacryorrhoea response in rats. Burgen, A S V. Brit. J. Pharmacol., 1949, 4, 185

14. The inhibition of cholinesterases by alkylphosphates and alkylphenolphosphates Burgen, A S V. and Hobbiger, F. Brit. J. Pharmacol. , 1949 , 6 , 593

15. Cholinesterase and succinic dehydrogenase in the central nervous system of the dog. Burgen, A.S.V., and Chipman, L.M. J. Physiol. Lond. 1951, 114, 296

16. The location of cholinesterase in the central nervous system. Burgen, A S.V., and Chipman, L.M. Quart.J. exp. Physiol., 1952, 37 ,61.

- 17*. The membrane resting and action potentials of the cat auricle. Burgen, A.S.V. and Terroux, K.G. J. Physiol. Lond. 1953, 119, 139

- 18*. On the negative inotropic effect in the cat's auricle. Burgen, A S.V. and Terroux, K.G. J. Physiol. Lond.. 1953, 120, 449

19. Osmotic work of the salivary secretion. Burgen, A.S.V. Amer.J . Physiol .1954, 179, 623

20. Central and Sensory Transmission. Burgen A.S.V. Pharmacol. Rev.,1954, 6 , 9 5

21. Methods for studying the reflex activity of the frog's spinal cord. Bunzl A., Burgen A.S.V., Delisle Burns B., Pedley N., and Terroux K.G. Brit. J.Pharmacol. 1954 9 229.

22. Water solute and cell exchanges in the dog's pleural fluid. Burke H.E., Stewart P.B. Burgen A.S.V. Trans.Amer.Clin.Climat.Ass 195 5 67, 46

- 23.* The secretion of potassium in saliva. Burgen A.S.V. J.Physiol. 1956, 132, 20

24. The Osmotic work of salivary secretion in the dog. Burgen A.S.V. J.Cell. and Comp.Physiol,1955 45 465

25. A theoretical treatment of glucose reabsorption in the kidney. Burgen A.S.V. *Can.J.Biochem.Physiol.* 1956 34 466.
- 26*. The secretion of non-electrolytes in the parotid saliva. Burgen A.S.V. *J.Cell and Comp.Piysiol.* 1956 48, 113.
27. The specificity of brain choline acetylase. Burgen A.S.V. Burke G., Desbarats-Schonbaum M-L. *Brit.J.Pharmacol.* 1956 11 308.
- 28*. Two inhibitory fibres forming synapses with a single nerve cell in the lobster. Burgen A.S.V., Kuffler S.W. *Nature, Lend.* 1957 180 1491.
29. The effect of nervous system extracts on inhibition and excitation in single nerve cells. Eliot C.R., Kaji A., Seeman P., Ubell E., Kuffler S.W. and Burgen A.S.V. *Biol. Bull., Woods Hole*, 1957, 113, 344
30. The physiological ultrastructure of cell membranes. Burgen A.S.V. *Can.J.Biochem.Physiol.* 1957 35, 569.
- 31*. The effects of some amino acids on the perfused lobster heart. Enger P.E.S., Burgen A.S.V. *Biol.Bull* 1957 113 345.
- 32* The secretion of iodide in saliva. Burgen A.S.V., Seeman P. *Can.J.Biochem.Physiol.* 1957 35 481.
33. The place of the basic medical sciences in clinical education. Burgen A.S.V. *Canad.med.Ass.J.* 1958 78 467.
34. Symposium on neurosecretion. Burgen A.S.V. *Can.J.Biochem.Physiol.* 1959 37, 307.
- 35*. A method for measuring the turnover of fluid in the pleural and other serous cavities. Burgen A.S.V., Stewart P.B. *J.Lab.Clin.Med.* 1958 52 118
- 36.* The turnover of fluid in the dog's pleural cavity. Stewart P.B., Burgen A.S.V. *J.Lab.Clin.Med.* 1958 52 212
37. The secretion of lithium in saliva. Burgen A.S.V. *Can.J.Biochem.Physiol.* 1958 36, 409.
- 38* The role of the salivary duct system in the formation of the saliva. Burgen A.S.V. Seeman P. *Can.J.Biochem.Physiol.* 1958, 36, 119.

- 39* The sites of transfer of sodium, potassium, and iodide in the parotid duct system of the dog. Burgen A.S.V., Godwin Terroux K., Gonder E., *Can.J.Biochem.Physiol.* 1959 37, 359.
40. *Transfusion reactions due to plasma incompatibility in dogs
Bliss J.Q., Johns D.G., Burgen A.S.V. *Circulat. Res.* 1959, VII 79-85
41. *Plasma volume expansion and reactions after infusion of autologous and non-autologous plasma in man. Hutchison J.L., Freedman S.O., Richards B.A. and Burgen A.S.V. *J. Lab. Clin. Med.* 1960, 56, 734
42. Oxygen consumption and blood flow in the submaxillary gland of the dog. Godwin Terroux K., Sekelj P., Burgen A.S.V. *Canad. J. Biochem. Physiol.* 1959, 37, 5
43. Cutaneous and systematic reactions to human plasma. Bliss, J.Q., Hutchison, J.L. and Burgen A.S.V.. *J. Allergy* 1960, 31, 134 43.
44. The salivary glands - some contemporary problems. Burgen A.S.V.
Canadian Dental Assoc Journal, 1960, 26, 258
45. Gastrointestinal absorption and excretion of Mg 28 in man. Graham L.A., Caesar J.J., and Burgen A.S.V. *Metabolism*, 1960, 9, 646.
46. Physiology of the salivary gland. Burgen A.S.V., Emmelin N.G. 1961, London, Edward Arnold
47. The disposal of tritiated folic acid injected intravenously in man. Johns D.G., Sperti S., Burgen A.S.V. *Canad. Med. Assoc. Journal*, 1961, 84, 77
- 48*. The metabolism of tritiated folic acid in man. Johns D.G., Sperti, S. and Burgen A.S.V. *J. Clin. Invest.* 1961, 40, 1684.
49. Application of analogue computer to measurement of intestinal absorption rates with tracers. Silverman M. and Burgen A.S.V. *J. Appl. Physiol.* 1961, 16, 911
50. Influx sites in the duct system of the dog parotid gland. Burgen A.S.V., Terroux K.G., *J. Physiol.* 1962 161, 399.

51. Comparison of effectiveness of autologous and nonautologous plasma in oligemic shock in dogs. Elias G.L., Gurd F.N., Hampson L.G., Burgen A.S.V. *Circulat.Res.* 1962 XI, 857-871.

52. Retinotectal connexions after retinal regeneration. Burgen A.S.V. Grafstein B. *Nature, Lond.* 1962 196 898.

53. Absorption of folic acid from the small intestine of rat. Burgen A.S.V., Goldberg N.J., *Brit.J.Pharmacol.* 1962 19; p. 313

54. The Structure and function of cell membranes. Burgen A.S.V. *Can.J.Biochem .Physiol.* 1962, 40, 1253

55. The effect of changes in the rate of flow of saliva on the concentration of iodide in parotid saliva. Burgen A.S.V. Terroux, K.G. *J.Physiol.* 1962 163, 239.

56*. Changes in the permeability of the salivary gland caused by sympathetic stimulation and by catecholamines. Martin K., Burgen A.S.V. *J. Gen.Physiol.* 1962 46, 225

57. Formation of iodinated protein in saliva. Weiss M., Weiss G., Terroux K.G. Burgen A.S.V. *Nature.Lond.* 1962 194 186.

58. The role of plasma colloid osmotic pressure in the regulation of extracellular fluid. Burgen A.S.V. Francombe W.H. *Excerpta Medica. Int.Cong.* 1962 series 48.

59. Infusion of non-autologous plasma: effects of chlorpheniramine and prednisolone and adrenaline. Hutchison J L., Burgen A.S.V. *Brit.Med.J.* 1963 ii 904.

60. Osmotic activity of gastric secretion. Burgen A.S.V. 1963 *Pathophysiology of peptic ulcer.* McGill University Press, Montreal.

61. Intestinal absorption of tritium-labelled folic acid in idiopathic steatorrhea. Kinnear D.G., Johns D.G., MacIntosh P.C., Burgen A.S.V. and Cameron D.G. *Can. Med.Ass.J.* 1963 89, 975

62. Some processes concerned with the secretion of sodium, bromide and chloride in saliva. Burgen A.S.V., Terroux K.G. *J.Physiol.*, 1963 169, 663.

63. Pattern of optic nerve connections following retinal regeneration. Grafstein.B., Burgen A.S.V., *Progress in Brain Research* 1964, 6, 126.

64. The comparative activity of arecoline and arecoline N-Metho salt. Burgen A.S.V. J.Pharm. 1964, 16, 638.
65. The predictive value of animal toxicity tests. Burgen A.S.V. Eval.New Drugs in Man. proc 2nd International Pharmacological Meeting. 1963.
- 66*.The inhibition of noradrenaline uptake by sympathomimetic amines in the rat isolated heart. Burgen A.S.V. L.L. Iversen. Brit. J. Pharmacol., 1965 25 ., 1.
67. The role of ionic interaction at the muscarinic receptor. Burgen A.S.V. Brit.J. Pharmacol. 1965, 25 ,
68. The secretion of non-electrolytes by the salivary glands. Burgen A.S.V. Res.on Pathogenesis of Cystic Fibrosis , 1966. Wickersham Prtnting Co.
- 69.The uptake of isoprenaline and noradrenaline by the perfused rat heart. Callingham B.A., Burgen A.S.V. Molec.Pharmacol. 1966, 2 , 37.
70. The pharmacological basis of drug interactions in the nervous system. Burgen A.S.V. Excerpta Medica Intl.Congress Series 129. 1966.
71. L'Action des medicaments muscariniques sur le flux de rubidium dans lea tissus musculaires lisses. Burgen A.S.V. J.Physiol.Paris 1966.58 481.
72. The drug-receptor complex. Burgen A.S.V. J.Pharm.Pharmac. 1966, 18, 137-149.
73. Membrane potentials and the secretory activity of the acinar cells. Burgen A.S.V. in Secretory Mechanisms of Salivary Glands 1967. Academic Press, New York.
74. Secretory processes in the salivary glands. Burgen A.S.V. in Handbook of Physiology Chapter 35. 1967.
75. Investigation of a hapten-antibody complex by nuclear magnetic resonance. Burgen A.S.V., Jardetzky O., Metcalfe J.C., Wade-Jardetzky, N. Proc. Nat.Acad.Sciences, 1967, 58, 447.
76. The effects of Drugs on membrane transport. Burgen.A.S.V. Proc. roy.Soc.Med. 1967 60 .329.

77. The proton relaxation of benzyl alcohol in erythrocyte membranes. Metcalf J.C., Seeman P., Burgen, A.S.V. *Molec.Pharmacol.*, 1968, 4, 87.
- 78*. The action of acetylcholine and other drugs on the efflux of potassium and rubidium from smooth muscle of the guinea-pig intestine. Burgen A.S.V. Spero, L. *Brit.J.Pharmacol.*, 1968, 34, 99.
79. Anaesthetics and cell membranes. Burgen A.S.V. *Arch.Pharmac. Exp. Path.*, 1968, 2, 259.
80. On the mechanism of binding of choline derivatives to an anticholine antibody. Metcalfe J.C., Burgen A.S.V. Jardetzky O. *Molecular Association in Biology*. 1968, Academic Press, New York.
81. Calcium excitable cells. Burgen A.S.V., *Proc.roy.Soc.Med.*, 1968, 61 67.
82. The state of quaternary ammonium ions in solution. Burgen A.S.V., Nogrady T., *Brit.J.Pharmacol.* 1969, 35, 375.
83. Spin-lattice relaxation of methyl protons in some compounds of biological interest. Nogrady T., Burgen A.S.V. *J.Amer.Chem.Soc.*, 1969, 91, 3890.
84. The structural features determining the affinity of haptens for an antibody binding acetylcholine. Marlow H.F., Metcalfe J.C. and Burgen A.S.V. *Molec.Pharmacol.*, 1969, 5, 166.
85. The specificity of drug receptors. An immunochemical model for cholinergic receptors. Marlow H.F., Metcalfe J.C., Burgen A.S.V. *Molec.Pharmacol.*, 1969, 5, 156.
86. The application of nuclear magnetic resonance to pharmacological problems. Burgen A.S.V., Metcalfe J.C. *J.Pharm.Pharmacol.*, 1970, 22, 153.
87. The use of nuclear magnetic resonance (NMR) in pharmacology. Burgen A.S.V., Metcalfe J.C. 4th.Cong.Pharmacol. 1969.

88. Receptor mechanism . Burgen A.S.V.
Ann.Rev.Pharmacol.,1970, 10, 7.
89. Sulphonamide complexes of human carbonic anhydrases
ultraviolet difference spectroscopy. King R.W., Burgen A.S.V.,
Biochim. Biophys.Acta. 1970, 207, 278.
90. The nature of complex formation. Burgen A.S.V. Ciba
Foundation Symposium on Molecular Properties of drugs
1970, 263.
91. The effects of calcium and magnesium on the response of
intestinal smooth muscle to drugs. Burgen,A.S.V., Spero L.
Brit.J.Pharmacol.,1970, 40 , 492.
- 92*. Influence of pH on the kinetics of complex formation between
aromatic sulfonamides and human carbonic anhydrase. Taylor
P.W.,King R.W., Burgen A.S.V. Biochemistry, 1970, 9 ,3894.
93. Kinetics of complex formation between human carbonic
anhydrases and aromatic sulfonamides. Taylor P.W., King R.W.,
Burgen A.S.V. Biochemistry 1970, 9 , 2638.
94. The binding of benzyl alcohol to erythrocyte membranes. Burgen A.S.V., Colley
C.M., Metcalfe J.C., Metcalfe S.M. and Turner C.B.,Brit.J.Pharmacol. 1970, 39, 217.
95. Investigation of ligand binding with cobalt (II) human carbonic anhydrase by ¹H
and ¹⁹F magnetic resonance spectroscopy. Taylor P.W., Feeney J., Burgen A.S.V.,
Biochemistry 1971, 10 ,3866.
96. Conformational studies of oxytocin and lysine vasopressin in aqueous
solution using high resolution NMR. Feeney J., Roberts, G.C.K., Rockey J.H., Burgen
A.S.V., Nature New Biology 1971, 232 , 108
97. Inhalation Anaesthesia: Mode of action. Burgen A.S.V..
General Anaesthesia (third edition) Ed.T.Cecil Gray and
J.F. Nunn Volume I (Basic Sciences) Butterworths. 1971.
98. Labelling of cholinergic receptors in subcellular fractions from rat
cerebral cortex. Hiley C.R., Young J.M. Burgen A.S.V. Biochem.J.
1972 , 127 ,.86.

99. Shifting targets for our magic bullets. In: The Challenge of life: biomedical progress and human values. Burgen, A.S.V., in Roche Anniversary Symposium, Basel 1971. Edited by Kunz R.M. and Fehr H. Basel, Birkhauser Verlag. 1972 p.374.
100. The action of botulinum toxin on neuromuscular transmission. Burgen A.S.V. In: International Encyclopedia of Pharmacology and Therapeutics, Section 14 Vol. 1. Edited by Cheymol. J., Oxford Pergamon Press, 1972.
101. J.F. Gaddum's Pharmacology, seventh edition, London, Oxford University Press, 1972. by Burgen A.S.V. and Mitchell J.F.
102. Conformational study of some component peptides of pentagastrin. Feeney, J., Roberts, G.G.K., Brown J.P., Burgen A.S.V., Gregory H., J.Chem. Soc. Perkin Trans. 1972, II, 601.
103. Homologues of benzilylcholine mustard. Young J.M. Hiley C.R. and Burgen A.S.V. J.Pharm.Pharmac. 1972, 24, 950.
104. Cyanide binding to carbonic anhydrase. A ¹³ C-nuclear-magnetic resonance study. Feeney J., Burgen A.S.V., Grell E., Eur.J.Biochem. 1973, 34, 107.
105. The binding of ³ H-propylbenzilylcholine mustard by longitudinal muscle strips from guinea-pig small intestine. Burgen A.S.V., Hiley C.R., and Young J.M., Br.J.Pharmacol., 1974, 50, 145.
106. The distribution of muscarinic receptor sites in the nervous system of the dog. Hiley C.R., Burgen A.S.V. Journal of Neurochemistry, 1974, 22, 159.
107. The properties of muscarinic receptors in mammalian cerebral cortex. Burgen A.S.V., Hiley C.R., Young J.M. Br.J.Pharmac. 1974. 51 279.
108. Unequivocal assignments of NH proton magnetic resonance bands in oxytocin using ² H and ¹⁵ N substituted molecules. Bradbury A.F., Burgen A.S.V. Feeney J., Roberts C.C.K., Smyth D.G. FEBS Letters 1974, 42, 179.
109. Structure-activity relationships in the sulphonamide-carbonic anhydrase systems. Burgen A.S.V., King R.W. Brit.J.Pharm. 1974, 51, 126P.

110. NMR studies of the binding of substrate analogues to L.Casei Dihydrofolate reductase. Burgen A.S.V., Dann J., Feeney J., Roberts G.C.K., Yuferov V.P., Brit. J. Pharmacol., 1974, 51, 126p.

111. Two populations of acetylcholine receptors in guinea-pig ileum.
Burgen A.S.V., Hiley C.R. Brit.J.Pharm.1974, 51, 127P

112*. Nuclear magnetic resonance studies of the binding of substrate analogues and coenzyme to dihydrofolate reductase from lactobacillus casei. Roberts G.C.K., Feeney J. Burgen A.S.V., Yuferov V. Dann J.G. and Bjur R. Biochem., 1974, 13, 5351.

113*. The binding of flexible ligands to macromolecules. Burgen A.S.V., Roberts G.C.K. and Feeney J. Nature 1975 253 753.

114* A nuclear magnetic resonance study of the interaction between vancomycin and acetyl-D-alanyl-D alanine in aqueous solution. Brown J.P., Feeney J. and Burgen A.S.V. Mol. Pharmacol., 1975, 11, 119

115. Research: The possibilities of medical innovation.
Burgen A.S.V..Proc. Roy. Soc. Med.1975, 67, 1273-1274

116. Conformational studies on hormonal peptides using nuclear magnetic resonance spectroscopy. Feeney J., Roberts G.C.K., and Burgen A.S.V. in Molecular and Quantum Pharmacology pp. 301-312. Ed. E. Bergmann and B.Pullman. D. Reidel Publishing Company, Dordrecht-Holland.

117. A structure-activity study by nuclear,magnetic resonance of peptide interactions with vancomycin. Brown J.P. Terenius L., Feeney J. and Burgen A.S.V. Molecular Pharmacology 1975, 11, 126

118*. ³¹P nuclear magnetic resonance studies of NADPH and NADP⁺ binding to L.casei dihydrofolate reductase. Feeney, J., Birdsall, B., Roberts C.C.K., and Burgen A.S.V. Nature 1975, 257, 564.

119. The use of an alkylating antagonist in investigating the properties of muscarinic receptors. Hiley C. R., Burgen A.S.V. in

Cholinergic Mechanisms Ed. P.C. Waser, Raven Press. New York 1975.

120. Interactions of agonists and antagonists with the muscarinic receptor. Hulme E.G., Burgen A.S.V., Birdsall N.J.M., L'Inserm 1975. 50, 49.

121. Binding of agonists and antagonists to muscarinic receptors. Birdsall N.J.M., Burgen A.S.V. Hiley C.R., and Hulme E.C., J.Supramolecular structure 1976, 4, 367.

122. A nuclear magnetic resonance study of nicotinamide adenine dinucleotide phosphate binding to lactobacillus casei dihydrofolate reductase. Way, James L. Birdsall B., Feeney J., Roberts C.C.K., and Burgen A.S.V. Biochemistry 1975 , 14, 3470.

123. *Kinetic aspects of structure-activity relations; the binding of sulphonamides by carbonic anhydrase. King R.W., and Burgen A.S.V. Proc.R.Soc. London B., 1976, 193, 107.

124. Animals in medical progress. Burgen A.S.V. ,Conquest, 1976, 167, 2.

125. Preparation of selectively deuterated aromatic amino acids for use in ¹H NMR studies of proteins. Griffiths D.V. Feeney J., Roberts G.C.K. Burgen A.S.V. Biochimica et Biophysica Acta, 1976, 446, 479.

126. 'Les recepteurs muscariniques. Burgen A.S.V.,Actualités Pharmacologiques,1977, 29, 143.

127. Axotomy causes loss of-muscarinic receptors and loss of synaptic contacts in the hypoglossal nucleus. Rotter A. Birdsall N.J.M., Burgen A.S.V. Field P.M., and Raisman G. ,Nature, 1977. 266. 734

128*. ¹H Nuclear Magnetic Resonance Studies of Lactobacillus casei dihydrofolate reductase; effects of substrate and inhibitor binding on the histidine residues. Birdsall B. Griffiths D.V. Roberts G.C.K.,Feeney.J. Burgen A.S.V. Proc. R. Soc. Lond. B., 1977, 196, 251.

129. ^1H Nuclear magnetic resonance studies of the tyrosine residues of selectively deuterated *Lactobacillus casei* dihydrofolate reductase. Feeney J., Roberts G.C.K., Birdsall B. Griffiths D.V., King R.W., Scudder P. and Burgen A.S.V. Proc. R. Soc. Lond. B., 1977, 196, 267.
130. Occupancy of muscarinic acetylcholine receptors stimulates a guanylate cyclase in neuroblastoma cells. Strange P.G. Birdsall N.J.M., Burgen A.S.V. Biochem. Soc. Trans., 1977, 5, 189
- 131*. The binding of antagonists to brain muscarinic receptors. Hulme E.C., Birdsall N.J.M., Burgen A.S.V. and Mehta P. Molecular pharmacology, 1978, 14, 737.
- 132*. The binding of agonists to brain muscarinic receptors. Birdsall N.J.M., Burgen A.S.V., and Hulme E.C. Molecular Pharmacology, 1978, 14, 723.
133. Processes underlying the interaction of chemicals with biological systems. Burgen A.S.V. in Biological Activity and Chemical Structure Edited by J.A. Kevering Buisman, Amsterdam, Elsevier Scientific, 1977. 83.
134. Proximity of two tryptophan residues in dihydrofolate reductase determined by ^{19}F NMR. Kimber B.J. Feeney J. Roberts G.C.K., Birdsall B. Griffiths D.V., and Burgen A.S.V. Nature, 1978, 271, 184
135. Nuclear magnetic resonance studies of ligand binding to dihydrofolate reductase. Burgen A.S.V. Feeney J. Roberts G.C.K. Brit. J. Pharmacol., 1977, 59, 521p.
136. ^{31}P and ^1H NMR studies of coenzyme binding to dihydrofolate reductase. Birdsall S. Burgen A.S.V., Feeney J. and Roberts G.C.K. Brit. J. Pharmacol, 1977, 59, 520P
137. Co-operativity in ligand binding to dihydrofolate reductase. Birdsall B., Burgen A.S.V., Feeney J., Rodrigues de Miranda J.F., and Roberts G.C.K. Brit. J. Pharmacol., 1977, 59, 521P.
138. Cooperativity in ligand binding to dihydrofolate reductase. Birdsall B., Burgen A.S.V., Rodrigues de Miranda J.F. and Roberts G.C.K. Biochemistry, 1978, 17, 2102

139. ³¹P NMR studies of the binding of adenosine-2' phosphate to Lactobacillus casei dihydrofolate reductase. Birdsall B., Roberts G.C.K., Feeney J., and Burgen A.S.V. FEBS Lett., 1977, 80, 313.

140. Interactions of peptides derived from the C-Fragment of β -lipotropin with brain opiate receptors, Birdsall N.J.M., Bradbury A.F., Burgen A.S.V. ,Hulme E.C., Smyth D.G. and Snell C.R. Brit. J. Pharmacol., 1976, 58, 460p.

141. Correlations between the binding properties and pharmacological responses of muscarinic receptors. Birdsall N.J.M., Burgen A.S.V. and Hulme E.C. Cholinergic Mechanisms and Psychopharmacology. Edited by D.J. Jenden, New York, Plenum Press, 1978, 25.

142. Muscarinic receptors: ionic Perturbation of the binding properties. Birdsall N.J.M., Burgen A.S.V. ,Hulme, E.C. and Wells J.W. Brit. J. Pharmacol. 1977, 59, 503P

143. Large scale purification and characterization of dihydrofolate reductase from a methotrexate-resistant strain of Lactobacillus casei. Dann J.G., Ostler G, Bjur R.A., King R.W., Scudder P., Turner P.C., Roberts G.C.K., and Burgen A.S.V. Biochem. J., 1976, 157, 559.

144. Dihydrofolate reductase , II: Interactions with the coenzyme , NADPH. Feeney J., Birdsall B., Roberts G.C.K. and Burgen A.S.V. in NMR in biology. Edited by R.A. Dwek, London, Academic Press, 1977, 111.

145. ¹⁹F Nuclear magnetic resonance studies of ligand binding to 3-fluorotyrosine- and 6-fluorotryptophan containing dihydrofolate reductase from Lactobacillus casei. Kimber B.J., Griffiths O.V., Birdsall B., King R.W., Scudder P Feeney J. Roberts G.C.K. and Burgen A.S.V. Biochemistry, 1977, 16, 3492

146. Dihydrofolate reductase: the use of fluorine-labelled and selectively deuterated enzyme to study substrate and inhibitor binding. Roberts G.C.K., Feeney J. ,Birdsall B. Kimber S., Griffiths D.V., King R.W., and Burgen A.S.V. in NMR in Biology. Edited by R.A. Dwek. London, Academic Press, 1977, 95.

147. Gaddum's Pharmacology. Eighth Edition. Burgen, A.S.V. and Mitchell, J.F. Oxford University Press. 1978,

148. A study of the muscarinic receptor by gel electrophoresis. Birdsall, N.J.M., Bur-gen A.S.V., Hulme E.C., Brit. J. Pharmacol., 1979, 66, 337.

149. Dimensions in health research. Search for the Medicines of Tomorrow. Burgen A.S.V. in Alfred Pletscher's 60th birthday symposium, Basle. Edited by H. Weissback and R.M. Kunz. New York, Academic Press, 1978, 3.

150. Multiple classes of muscarinic receptor binding sites in the brain. Birdsall N.J.M., Burgen A.S.V. ,Hulme E.C. In: Advances in pharmacology and therapeutics. 1: Receptors. Edited by J. Jacob, Oxford, Pergamon Press, 1978, 75.

151. The use of transferred nuclear overhauser effects in the study of the conformations of small molecules bound to proteins. Albrand J.P., Birdsall B., Feeney J., Roberts G.C.K. , and Burgen A.S.V. International Journal of Biological Macromolecules. 1979 1 37.

152. Muscarinic receptors: Biochemical and binding studies. Birdsall N.J.M., Burgen A.S.V., and Hulme E.C. In: Recent advances in receptor chemistry. Edited by F. Gualteri, M. Gianneli and C.Melchiorre. Elsevier, Amsterdam, 1979, 71

153. Nuclear magnetic resonance studies of the binding of trimethoprim to dihydrofolate reductase. Cayley, J. ,Albrand J.P., Feeney J., Roberts, C.C.K. ,Piper E.A. and Burgen A,S.V. Biochemistry ,1970, 18, 3886

154. Muscarinic receptors in the central nervous system of the rat.I. Technique for autoradiographic localisation of the binding of propylbenzilylcholine mustard and its distribution in the forebrain.

Rotter, A. ,Birdsall N.J.M. Burgen A.S.V., Field P.M., Hulme E.C. and Raisman G. Brain Research, 1979. 11 , 141.

155. Muscarinic receptors in the central nervous system of the rat. IV.A comparison og the effects of axotomy and

deafferentation on the binding of(³H)propylbenzylcholine mustard and associated synaptic changes in the hypoglossal and pontine nuclei. Rotter, A., Birdsall N.J.M., Burgen A.S.V., Field P.M., Smolen A., and Raisman G. Brain Research, 1979, 1, 207.

156. NMR evidence for the structure of the complex between penicillin and the DD-carboxypeptidase of streptomyces R61. Degelaen J., Feeney J., Roberts. G.C.K., Burgen A.S.V., Frere J.M., and Ghuysen,J. FEBS LETTERS, 1979, 98, 53.

157. A nuclear magnetic resonance study of the degradation of penicillin G in acidic solution. Degelaen J P., Loukas S.L., Feeney J., Roberts G.C.K.,and Burgen A.S.V. Journal of the Chemical Society, Perkin, 1979,II, 86.

158. Molecules of Life. Phillips D.C., Burgen A.S.V. ,Feeney J., Roberts G.C.K., Abraham E.P., Waley S.C. In: Highlights of British Science, London, Royal Society, 1978, 193.

159*. Guanine nucleotides modulate muscarinic receptor binding in the heart. Berrie C.P., Birdsall N.J.M. Burgen A.S.V., and Hulme E.C. Biochemical and Biophysical Research Communications. 1979, 87, 1000.

160. The effects of ions on the binding of agonists and antagonists to muscarinic receptors. Birdsall N.J.M., Burgen A.S.V. ,Hulme E.C., and Wells J.W. Brit. J. Pharmacol. 1979, 67, 371.

161*The character of the muscarinic receptors in different regions of the rat brain.Birdsall N.J.M., Hulme E.C., Burgen A.S.V. Proc.Roy.Soc.B., 1979, 207,
