20.30-21.00 h. Reception.

Past Event: 1st CONFERENCE OF THE UN UNIVERSITY MIGRATION NETWORK. International Migration and Current Challenges: Transforming the Debate on Human Mobility. St. Pau Hospital, Barcelona. Jan. 28, 2016 (see illustration)

The United Nations University, Institute on Globalization, Culture and Mobility (UNU-GCM), with the collaboration of the BKN-AE, organised the first conference of the UNU Migration Network. The theme of the meeting is a crucial contemporary topic, connected to key concerns of our world, including, among others, human and international security, sustainable development and gender issues.

As a consequence, questions arising in the field of international migration provoked discussions among a variety of experts, stakeholders and citizens on how to better deal with human mobility. This conference provided the audience with an interdisciplinary and multifaceted analysis of these dynamics.

Video "Microbial mats" on BKH-AE in Action Vimeo Channel

"Microbial mats" (see illustration), short video co-produced by the BKH-AE and filmmaker Rubén Duro. Shown at the "Light, from the Earth to the Stars" *Ciència Viva*-BKH-AE Conference, held in Lisbon (July 2-3, 2015) in commemoration of the **UN International Year of Light 2015**. (00:05:47)
