

TITLE AND FULL NAME: Dr. Johannes Klumpers

AFFILIATION: European Commission

LINK TO WEBPAGE: <https://ec.europa.eu/research/sam/index.cfm>

BIOGRAPHICAL NOTE

Johannes Klumpers leads the “Group of Chief Scientific Advisors – SAM, EGE” Unit in the European Commission.

The Unit supports the Commission’s Group of Chief Scientific Advisors as well as the European Group on Ethics in Science and New Technologies (EGE), who provide the European Commissioners with science and ethics advice respectively.

The Unit also develops policies on research integrity and research ethics and is responsible for the Horizon 2020 ethics assessment scheme.

A German National, born in Geneva in 1964, he studied forestry and wood technology and obtained a PhD from the French École Nationale du Génie Rural, des Eaux et Forêts (ENGREF). After several years of industrial research in Sweden, he joined the European Commission's Directorate-General for Research & Innovation in 1998 and has worked there since, on a variety of topics, from renewable raw materials and industrial processes to gender, science in society, finance and budget. He has been in his current post since its establishment, on 1 October 2015.
